

GLOBAL SENSORS NEW ITEM

Upward Display Unit Has Long History of Convenient and Accurate Measurement

Sometimes simple things are the best. This very durable and time tested instrument is just perfect to hand to someone who has never used an IR thermometer before. Point at food item and press red button.

Supervisors can set the "hidden button" that selects °C or °F in the reading.

To hold a reading, just press the red button a bit longer.

Global Sensors AQA1515 IR Upward Display Thermometer
\$109.00 each.

PS#72

Upward Display IR Handheld Thermometer

This unit is specifically designed to be used for cooking temperature and steam table temperatures.

Also works well for refrigerated display cases

Upward facing display is more convenient for standing close to target.

One button operation is best for untrained operators getting temperature data. Just push and read...that simple.

- Hold Function (7 seconds)
- °F or °C display switch
- Range: -25-400 °F (-30 - 200°C)
- ± 1°C (2 °F) accuracy [at HACCP critical range (32-150 °F (0 - 60°C))]
- 0.5 second response time
- 4:1 distance ratio is ideal for closer reading
- 7.25" x 1.75" x 1.5" (8.4 x 4.5 x 3.8 cm)
- Shipping weight 0.5 lb (227 g)
